

DPO ASSURE

Outsourced Data Protection
Officer and compliance

WHAT IS IT?

Our standard outsourced DPO service, Assure provides everything you need to manage your risk and compliance with data protection and information governance.

It provides flexibility through direct support from a dedicated Lead Consultant, guiding you through best practice and implementation of your data protection project with visits and remote sessions to monitor and report.

With full support from our core-DPO team of legal professionals, we can help with everything from questions on policies to complex incident management when things go wrong.

Whether you are a standalone small primary, a large multi-academy trust or a provider of services to the education sector we have a solution to meet your needs and budget.

KNOWLEDGE BANK

From logs and training, through to RoPA and phishing sims. All the tools, guidance and resources to manage your information governance programme.

D « INBOUND SUPPORT

Support from our core-DPO team - SARs, data breaches, supplier due diligence and DPIAs - or any other questions and queries - we're there when you need us

D » OUTBOUND SUPPORT

With visits and online sessions, we proactively work with you to ensure that you maximise your compliance and reduce your data risk.
