WHAT IS IT?

Our Subject Access Request Services allow you to outsource all aspects of SAR management, removing the burden from your admin team.

REDACTION

Send us your files via the DPE Vault and, using the latest technology and trained staff, we'll convert to pdf, remove duplicate files and undertake the redactions required.

CCTV? No problem, upload and we'll redact to allow you to disclose safely.

We'll always send you a link to review prior to disclosure.
